**Notes :**

- Some of the existing customers having long term power purchase agreements have entered into long term job work agreements with the Group for supply of power from July 1, 2020 onwards. As per the said agreements, the coal required for power generation is supplied by the respective customers which is converted into power by the Group and supplied to the customers. The Group receives the job work charges from the customers. These arrangements have, primarily, resulted in lower revenue from operations and fuel cost to the extent of cost of consumption of coal for the power generated under job work. Accordingly, to such extent, the results for the quarter and six months ended September 30, 2020 are not comparable with those for the previous periods and previous year-end.
- The Group continued its operations amidst outbreak of COVID-19 as electricity generation is regarded as one of the essential services by the Government. The Group's substantial generation and transmission capacities are tied up under medium to long term power purchase / job work / transmission agreements, which insulates revenue
